PLAIN TO LIMIT DEBATE KILLED CLAIMS STATE TO BENEFIT \$100,000,000

M'DONALD DEFENDS LEASING POLICY IN PROBE HIS OFFICE

DECLARES HIS IDEAS WILL EVENTUALLY NET STATE HUNDRED MILLION

AUSTIN, Jan. 27.—(AP)—Land Commissioner William H. McDonald today told a senate committee investigating his oil leasing policies they ultimately would net the state school fund \$100,000,000.

The commissioner, still on the stand after hours of vigorous questioning, replied hotly to charges he had made and that he had actual knowledge of only one well being started.

He admitted, however, there was as yet no production on any of the leases he had made and that he had actual knowledge of only one well being started.

"The Pure has begun operations in Laguna Madre, though, and the war department and railroad commission have granted drilling permits for a number of wells," he said.

McDonald's ire was aroused when A. R. Stout of Ennis, special attorney for Governor James V. Allred in the inquiry, repeated the charge the low cash awards had cost the schools \$1,000,000.

"That's your opinion," he retorted. "I say I've made a hundred million."

Stout questioned McDonald about activities between his inauguration in the summer of 1936 and the inauguration in December of that year, his bank account and the amount of his house rent.

McDonald was employed as an appraiser for the receiver of a large life insurance company during the intervening months. While he was so employed, he made a business trip to California, he continued, with W. W. Heath, assistant attorney general, and Tom C. Clark of Dallas, former law partner of Attorney General William McCraw, and now an assistant United States attorney general.

The commissioner said McCraw was not in California at that time so far as he knew.

"Do you have a lock box in a bank at Eastland, Stout wanted to know."

"Not there or in any other bank," the Commissioner answered.

McDonald disclosed he paid \$100 per month house rent. His salary is \$500 monthly.

No one, he testified, that after he became commissioner his campaign manager for Harris county opened an office here. Stout had tried to show that some of

Liquorless Night Club Planned By Minister Group

MILWAUKEE, Jan. 27.—(AP)—As another step toward "dry-cleaning" the city's night life for the benefit of its young people, Milwaukee ministers are going into the night club business.

The Rev. Raymond H. Ewing, chairman of the militant ministerial association which campaigned for and helped bring about a 2 a. m. tavern closing ordinance to start off the new year, now announces that the association intends to prove liquor is not necessary to a good time by opening a model liquorless night club with a soft drink bar.

The pastors arrived at their decision after making a liquor and vice survey of the city's night spots and being dismayed at the considerable "drinking and obscene floor songs" which they said were offered young people.

The Rev. Mr. Ewing revealed that the ministerial association is negotiating for use of a roadhouse frequently raided during prohibition days. Church-sponsored entertainment will begin there as soon as remodeling operations are completed. An extensive ice cream soda bar is to be installed.

TEXANS IN CONGRESS DECLARE TALK OF POLITICAL DYNASTY FROM STATE IS PURE HOKUM

REP. E. A. KENNEY OF NEW JERSEY IN FATAL HOTEL FALL

HAD ATTENDED BANQUET LAST NIGHT; BODY DISCOVERED EARLY TODAY

WASHINGTON, Jan. 27.—(AP)—Edward A. Kenney, 52-year-old New Jersey representative, known for his advocacy of a national lottery, plunged or fell to his death from the sixth floor of a fashionable hotel (Carlton) here during the night.

The body, discovered at 8 a. m. by Emil Semet, a hotel waiter, was identified by Kenney's secretary, John M. Stewart. It was clad only in underwear.

The representative had been a guest last night at the annual congressional dinner of the New Jersey Chamber of Commerce.

No one, police said, saw Kenney fall to his death.

Stewart said the police homicide squad reported to him that Harry Kelleher, an official of the Campbell Soup company who also attended the dinner, went to bed in the same room about 3 a. m. and that Kenney was sleeping soundly at the time.

The police report said Kelleher knew nothing further until he was awakened after the discovery of Kenney's body.

Stewart said the room had large French windows opening out and there was no screen over the

WASHINGTON, Jan. 27.—(AP)—Texans in congress, although admitting that they are "in the middle" as far as big jobs on Capitol Hill are concerned, declare any talk about a "Texas political dynasty" in Washington is just so much hokum.

"The rule of seniority has put us where we are," said Rep. Sam Rayburn, house democratic leader. "We have simply stayed in congress until we went up the ladder or out altogether."

Here's a list of Texas "big guns" in congress.

Ruddy-faced, genial John Nance Garner presides over the senate and is credited by legislators with having more influence in national affairs than any recent vice president. He has been in congress since 1903.

Bald, stocky Sam Rayburn is floor leader of the overwhelming democratic majority in the house. He first came to the house in 1913.

Service is soft-spoken, dignified Morris Sheppard, chairman of the senate military affairs committee. He has been a member of congress since 1902.

Tall, sharp-tongued Tom Connally heads the senate committee on public buildings and grounds, and is the leader of those senators who are filibustering against the anti-lynching bill.

In the house, rangy, sun-tanned Marvin Jones is chairman of the rivers and harbors committee. Hard-working Hatten Sumners has made such a reputation as head of the judiciary committee that members of his committee urged President Roosevelt to appoint him to the supreme court.

Witty-gray-haired Representative Mansfield—the "gentleman in the wheel chair"—is chairman of the rivers and harbors committee. Fritz Lanham, handsome one-time vaudeville actor, heads the com-

REORGANIZATION OF STOCK EXCHANGE IS URGED BY COMMITTEE

WOULD ELIMINATE SELF PERPETUATING BOARD BY GOVERNORS; OTHER REFORMS

NEW YORK, Jan. 27.—(AP)—Complete reorganization of the New York Stock Exchange, with a salaried president in administrative control, and an end of the "self-perpetuating" board of governors, was proposed today by the committee for the study of organization recently appointed by Charles R. Gay, president of the exchange.

The report, which meets many of the suggestions made by Chairman William O. Douglas, of the S. E. C., was presented simultaneously to Gay in New York and Douglas in Washington.

A. A. Berle, Jr., a member of the committee, made the presentation to Douglas.

Proceedings from the premises that "the public interest is the paramount consideration," the committee said it is "apparent to us that the organization of the Stock Exchange should be revised to accord with changing times and conditions."

High spots in the proposals were:

Sharp revision of the set-up of the board of governors, with a reduction of its members from 50 to 32, providing for 6 of these to represent non-members or member-partners of firms having their principal business outside of New York City.

Three representatives of the general public would be provided on the board, such representatives to be nominated by the president.

The terms of the governors would be for 3 years and they would not be allowed to succeed themselves after serving two terms, except after an interval of at least one year.

NO MOVE APPARENT IN CONGRESS OVER OIL STATES PACT

FURTHER EXTENSION COMPACT NOT BEING SYSTEMATICALLY OPPOSED

WASHINGTON, Jan. 27.—(AP)—Texas congressional leaders expressed the opinion today there was no apparent move in congress against further extension of the oil states compact, which otherwise expires in 1939.

Senator Connally, author of the Connally "hot oil" act prohibiting interstate shipment of contraband oil, said:

"If there is any move, I haven't heard of it."

Representative Poage of Waco, secretary of the delegation, said he had heard of no organized movement on the part of non-petroleum producing states against the compact.

While some non-producing states may oppose the compact in the belief that it maintains a higher price level on oil and gasoline than might otherwise prevail, many representatives agreed with Representative Gilchrist (R-Iowa), who said:

"I know the aim of the compact is to conserve natural resources. I have never given it particular consideration."

The Iowa, who has studied state compact in general, closed his debate on the subject at length in the house, expressed the opinion there may be some question as to the "brush."

New State Move Took Startling Turn Thursday

BROWNSVILLE, Jan. 27.—(AP)—The move to form a fourth ninth state, the lower Rio Grande Valley took a new and startling turn here today when a group of intrepid citizens decided to work for a brand new country, with treaties, an army, navy, and plenty of public debts.

Its theme song will be "Back to the Beards."

"Man lost his freedom when he lost his beard," said A. A. Har- grove, who has announced he will be president of the new country.

"Down here on the Rio Grande we are to bring forth a new nation, dedicated to the cause of the brush."

A constitutional convention was called for next Wednesday by the brush men, an auxiliary of the charrro days fiesta to be celebrated here.

Jackson Is Named Solicitor General Of U. S. Today

WASHINGTON, Jan. 27.—(AP)—President Roosevelt nominated Robert H. Jackson, of New York today, to be solicitor general of the United States. He is now assistant attorney general in charge of anti-trust cases.

Jackson will succeed Stanley F. Reed, of Kentucky, who received his commission as a member of the supreme court from the President earlier in the day.

Reed will take his seat on the high bench Monday.

Jackson, whose home is in Jamestown, N. Y., will be 46 on February 13.

As head of the anti-trust section, he was successful in several major prosecutions. One of the most recent was the conviction of 16 oil companies for conspiracy to raise and fix gasoline prices in ten mid-western states.

Several weeks ago Jackson received considerable notice when he made two outspoken speeches against monopoly. Some political observers regarded these as part of a possible campaign for the New York State democratic gubernatorial nomination.

As solicitor general, Jackson's chief job will be to represent the government before the supreme court.

Allens Are Barred. CLEVELAND, Jan. 27.—(AP)—Poverty-pinched, wizened aliens wondered which way to turn to get a decent meal in this city of some million persons.

The government barred them last July from WPA jobs. The Ohio legislature would bar them from relief in a bill awaiting Gov. Martin L. Davey's decision. Ohio cities do not know whether the act would allow them even to extend municipal aid.

'SICK' PEOPLE CONSUME AN ESTIMATED 500,000 GALLONS OF LIQUOR YEARLY IN TEXAS

AUSTIN, Jan. 27.—(AP)—"Sick" people consume an estimated half million gallons of hard liquor annually in Texas.

A headache to enforcement officers, a "racket" to the liquor control board's staff and just plain funny to others, the figure represents the amount of liquor sold by drug stores in dry areas through prescriptions.

Calculations show a pharmacy in a typical dry district averages 81 gallons of liquor a month dispensed for medicinal purposes.

This constitutes 12 per cent of the total whiskey, gin and liquors bought by Texans.

Board authorities say much of the liquor undoubtedly is used to treat genuine ailments, is properly prescribed for, purchased at a drug store permitted to sell it and then duly imbibed according to a physician's instructions.

"But," they declare, "a perfectly healthy person, suffering from no more than a thirst, also can get all he wants and pay no more than he would in a district which

COLD WAVE EXTENDS FAR SOUTH TODAY; NINE KNOWN DEATHS

SNOWDRIFTS THIRTY FEET DEEP BLOCK HIGHWAYS OF MICHIGAN

By the Associated Press

Chilling winds extended today a cold wave which blocked highways of upper Michigan with snow and spread sub-normal temperatures as far south as central Florida.

Nine deaths were attributed to winter storms and floods. A shift in the wind relieved the pressure of an ice jam against "honeycomb bridge" at Niagara Falls and saved the 1,200-foot steel span from immediate destruction.

Michigan highway crews cut through snowdrifts ranging up to a depth of 30 feet in the northern part of the state. Workers rescued hundreds of motorists. Mine operations ceased and some schools were closed.

Temperatures dropped below the zero mark at many points in the Midwest yesterday. Bemidji, Minn., reported 20 below.

Fair, cold weather and recession of headwaters localized winter floods of Arkansas. Weather observers forecast the Ouachita river would rise to a crest of 42 feet, a modern record, at Camden, Ark., Friday.

In Mississippi, where 21 degree weather was felt at Jackson, Commissioner of Agriculture J. C. Holt said there perhaps was some "slight damage to early vegetables," Louisiana agriculturists said they believed fruit in that

Illinois Woman May Die in Chair After Midnight

Mrs. Porter indicated she had given up her former belief Gov. Henry Horner would prevent her from being executed.

She was sentenced to death for the murder of her brother, William Kappen, on his wedding day last July near Belleville, Ill. All principals of the case were residents of St. Louis, Mo.

Glancio, 22-year-old triggerman who admitted he shot Kappen to death at her instigation, said last farewell yesterday to his family, excepting his brother, John Joseph, who is serving 99 years for the same crime.

CHINESE IRREGULAR FORCES HARASS JAP INVADERS IN NORTH

SMALL DETACHMENTS JAPANESE BEING WIPED OUT BY GUERRILLAS

(By The Associated Press.) PEIHING, China, Jan. 27.—(AP)—China's red legions and peasant irregulars are on the march against Japanese in the vast north China area.

Concentrating swiftly, attacking swiftly and dispersing swiftly, they have struck time and again at Japanese communication lines and Japanese garrisons.

Authentic details of this warfare in the frozen northern provinces, where the Chinese-Japanese conflict began, were brought to Japanese-conquered Peiping today by foreigners who arrived from the war areas.

They reported that during January Chinese irregulars along the Peiping-Hankow and Chenghai railroads wiped out small detachments of Japanese troops in at least 20 instances.

Sallies of the irregulars interrupted traffic on the Japanese-controlled portion of the Peiping-Hankow line, one of China's main north-south rail arteries, on an average of three times a week.

Japanese garrisons at Tientsin, 100 miles southwest of here, were annihilated on three different occasions.

A Japanese regiment at Chuanyang mountain town west of Tientsin, suffered losses of 10 per cent under a fierce guerrilla onslaught.

The Chinese Red army spurred irregulars to new attacks by holding a military congress of all guerrilla forces at Fuping, in

LEAGUE MEMBERS TO MAKE OWN SANCTION DECISIONS IS PLAN

THIS APPEARED AS SOLUTION OF PROBLEM THAT THREATENED SPLIT

GENEVA, Jan. 27.—(AP)—Liberty of League members to make their own decisions on sanctions today appeared the probable solution by the League of Nations council to the problem that had threatened to split it.

British Foreign Secretary Anthony Eden and French Foreign Minister Yvon Delbos were today new their government's pledges of faith in the League covenant to-night at the first public meeting of this, the council's 100th session.

But Oosten Unden, Swedish delegate and Belgian foreign minister Paul Henry Spaak, authoritative sources said, had agreed to raise the sanction question only if a general debate developed from the declarations of faith.

Three other main questions before the council were apparently being disposed of thus:

1. The Rumanian Jewish problem—Postponed after indications that the anti-Jewish attitude of Rumanian Premier Octavian Goga's government would be less aggressive.

2. The Sanjak of Alexandretta: France agreed "in principle" with See LEAGUE NATIONS, Page 10.

The body of James Atwood Gray (above) was found in Wisconsin, where he reportedly was slain by John Seadlund (Peter Anders), named as the kidnaper of Charles Ross of Chicago. Speedy Living, Worry Causes Of Many Illnesses

SAN ANTONIO, Jan. 27.—(AP)—Worrying one's self into the grave is more than a mere figure of speech. It is a terribly real fact.

Dr. Frank Lahey, chief surgeon of the Lahey Clinic of Boston, said here as guest speaker at the International Post-Graduate Medical Assembly.

The surgeon pointed to the increased percentage of stomach ulcers as one of the results of the business depression. This, he explained, is because the worried man is unable to digest properly his food.

In addition to worry, "the terribly high speed" at which most people live today is contributing to the increase in stomach, or peptic, ulcer, he said.

LAMB SITUATION HELD SHEEP MEN'S ATTENTION THURSDAY; DISCUSS PRICES, CONSUMPTION

SALT LAKE CITY, Jan. 27.—(AP)—America's sheepmen turned today to a consideration of lamb marketing problems and lamb crop prospects for 1938.

The second day of the 73rd annual convention of the National Woolgrowers' Association was devoted largely to a round table discussion of price fluctuations, lamb fattening methods and means of promotion of lamb consumption.

Three cities, meanwhile—San Francisco, Spokane, Wash., and San Antonio, Tex.—entered bids for the 1939 convention. The choice will be announced at the convention's conclusion late tomorrow.

Delegates agreed that crop prospects were good but the price outlook poor.

Leo Hahn, president of the Oregon Woolgrowers' Association, said "conditions in the Pacific northwest are too good to be true. All we need now is some profitable prices."

Texas has had lots of rain and range conditions are good, but prices, particularly for goats, are very bad," said G. W. Cunningham, secretary of the Texas Sheep and Goat Raisers' Association.

Homor R. Davison of Chicago, vice president of the Institute of American Meat Packers, outlined plans for a campaign to stimulate meat consumption, but expressed doubt as to whether prices could be raised.

"The convention apparently shelved a threatened controversy with the committee for industrial organization," said a spokesman.

P. R. Marshall, association secretary, said a letter from Harry Bridges, west coast C. I. O. leader,

SOUTHERN SENATORS HAVE UPPER HAND IN ANTI-LYNCHING BILL

SENATE REFUSES LIMIT DEBATE; SHELVE OF BILL SOON EXPECTED

WASHINGTON, Jan. 27.—(AP)—The senate killed today a proposal for drastic limitation of debate on the anti-lynching bill against which southern senators have been filibustering since the session started.

The vote was 51 against limiting debate to 37 for.

The vote against debate limitation, or cloture, gave new encouragement to the southern bloc that the anti-lynching measure would be shelved.

Imposition of cloture, which would have limited further speech-making against the bill to one hour for each senator, was requested in a petition signed by 17 senators.

Although supporters of the anti-lynching proposal said they would seek to keep it before the senate, opponents were expected to make an effort to sidetrack it soon.

The opponents cause was given strength immediately by a statement of Democratic Leader Barkley. He told the senate he would call on the senate "in the very near future" to decide whether it wanted to continue debate on the bill or take up other matters.

"I have done everything I could to bring this bill to a vote, just as I would have done with any other legislation," Barkley declared. "It has been debated since last August and here it is nearly February."

"I want to serve notice that in the very near future I am going to call on the proponents of this bill to decide whether they want to continue to debate a measure which we can not get a final vote, or whether we should take up some other legislation."

The vote on cloture came after an hour's speechmaking by proponents and opponents of the anti-lynching bill.

For the opponents, eighty-year-old Senator (D-Va.) said today for 20 minutes, denouncing the bill as an invasion of state rights.

Glass asserted that the bill was "saturated with hypocrisy." Galleries filled as the two sides engaged in vehement debate. Congress, Page 4.

CHEERING REPORTS FROM INDUSTRY AND FOREIGN BUSINESS

ADMINISTRATION OFFICIALS ENCOURAGED BY LATEST DEVELOPMENTS

WASHINGTON, Jan. 27.—(AP)—Secretary Morgenthau said today a plan for loans to small businesses was one of many ideas being considered by the administration as an aid to business and industry.

The cabinet member said he could not discuss the details.

The administration, it was understood, was considering methods to make it easier for small businesses to float securities to obtain necessary funds and in addition was studying the possibility of reopening Reconstruction Finance Corporation loan activities.

Cheering reports on industrial production, foreign trade and wholesale business helped encourage administration officials studying the general business situation.

The federal reserve board said in its monthly review of business conditions that the decline in industrial output—which caused concern near the end of 1937—had been halted this month.

The first three weeks of January, the report said, showed little change in production, as

State Home 2 0 2 .000

Lead off by the triumvirate of Ivey, Stevenson and Wright, the Oil City basketball five hung up an impressive 49-27 victory over the Girard Oilers last night in the Y-Triangle basketball league.

The aforementioned trio scored all except one point of the victor's share of the loot. Fred Doolen was top-scoring, scoring 19 points, while the remainder of the Oilers' scoring was fairly evenly distributed among the other players.

The later game was forfeited to Dr. Pepper by State Home, when it became impossible for the latter to appear for action.

For County Treasurer.

In another column in today's paper will be found the formal announcement of E. B. Burleson as a candidate for the office of treasurer of Navarro county, subject to the action of the Democratic primaries.

Mr. Burleson, a native of Navarro county, born near Angus 32 years ago, and has lived here all his life. For eight years he served as deputy constable at Kerens until he was paralyzed as a result of injuries received in an automobile accident on October 28, 1935, and could no longer fill the duties of this office.

For seven weeks he was under the care of two nurses in a hospital suffering from a broken spinal column, paralyzed from his hips down. Although he is able to ride in an automobile now, he must be carried to and from his chair by some one. This handicap prevents him from being able to see and talk to every voter personally and he takes this means of respectfully soliciting the support and influence of the voters of Navarro county.

A married man with a wife and child, Mr. Burleson seeks this office in order that he may be able to pay the hospital and doctor bills resulting from his accident.

All who know him remember the efficient and competent manner in which he handled the office of deputy constable when he was able to work and feel he will be just as conscientious in the administration of the affairs of the office he now seeks. The weather was never too bad, nor the job too tough for Constable Burleson.

His friends in all sections of the county urge the voters of Navarro county to give him careful consideration in making their selection of a candidate for treasurer when they cast their ballots in the coming Democratic primaries, and to use their influence in his behalf.

DAD'S CLUB REPORTS MEMBERSHIP OF 166; W. A. LANG PRESIDENT

ORGANIZATION PERFECTED AT MEETING TUESDAY NIGHT JUNIOR HIGH

Corsicana Dad's Club was formally organized at a meeting held in the auditorium of the Junior High school Tuesday night at 8 o'clock. A constitution and by-laws were adopted and permanent officers were elected. Prior to the business meeting of the club, an interesting program was presented by O. F. Allen, principal of the Junior High, in which a number of Junior High students appeared.

E. Cunningham, temporary president, presided.

At the conclusion of the meeting, officials announced there were 166 paid charter members. A number of prizes offered by local merchants were awarded at a drawing.

The first number in the Junior High program was a clarinet solo by Joe Terry, accompanied by the piano by Joel C. Trimble.

Eleven Junior High school traffic patrolmen, attired in their blue uniforms, white belts and equipped with badges and whistles, drilled on the stage.

Leon Levi, Willford Dutton and Nancy Pittman delivered interesting addresses on various phases of safety as sponsored and fostered in the school.

R. A. Purifoy made a report on the recent trip to Dallas of 17 members where they were guests of the Highland Park Dad's Club. He pointed out the sphere of activity the club can function in and stated it was to cooperate with the schools in a similar capacity to the P. T. A.

The by-laws were read by Beauford H. Jester, chairman, and after one or two minor changes were passed. The report was unanimously accepted. The club will meet the third Tuesday night in each month, except during the summer.

The following officers were elected following the report of John Garritty, chairman of the nominating committee, when an invitation for nominations from the floor failed to get a response.

W. A. Lang, president.
Lawrence (Sadie) Ransom, secretary.

Jack Roberts, treasurer.
Paul Moore, reporter.

E. Y. Cunningham, vice-president and chairman of the program and publicity committee.

John Garritty, vice president and chairman of the athletic committee.

Fred Prince, vice-president and chairman of the band and pep squad.

Dr. L. E. Kelton, Jr., vice-president and chairman of the educational and welfare committee.

J. H. Sullivan, vice-president and chairman of the finance committee.

Ed Wendorf, vice-president and chairman of the membership committee.

Beauford H. Jester, vice-president and chairman of the policy and objectives committee.

Joe Wolens, vice president and chairman of the grievance committee.

H. R. Stroube was temporary chairman of the membership committee.

The president, secretary, treasurer and eight vice-presidents will constitute the executive committee.

The annual dues will be \$1 per year but the dues from the present time until the next Tuesday in May when the next club year begins will be 50 cents per member.

W. P. McCommon, president of the P. T. A., spoke of efforts in enlarging the present Junior High building in the event the \$24,000 is diverted from the market house fund by the citizens of Corsicana for the school for that purpose Tuesday, Feb. 1.

He said that architects estimates included a six-room addition to the present building from the \$24,000 plus the salvage materials from the old Junior High building.

President McCommon stated that school officials appreciate the interest the men are taking in school affairs in the organization of the Dad's Club and declared he could not conceive of any better thing for Corsicana schools than this organization.

Refreshments were served following the drawing for prizes and the business sessions.

Anti-Lynch Bill Backers Obstinate

WASHINGTON, Jan. 27.—(AP)—Senators backing the anti-lynching bill declined today to put it aside, even though advance surveys indicated they did not have enough votes to impose a drastic limit on debate.

Their failure to muster a two-thirds majority for a motion to limit debate indicated that the bill would mean that the southern filibuster against the measure could continue unchecked. The vote was set for 1 p. m., Eastern Standard time.

Confident southerners, however, expressed the belief that defeat of this motion would result in sidetracking the legislation within a few days.

Democratic Leader Barkley agreed to consult proponents of the anti-lynching bill before such a course. Two of the measure's principal supporters, Senators Wagner (D-N.Y.) and Clark (D-Mont.), declared it should be kept before the senate regardless of the vote on curtailing debate.

Legislation was piling up rapidly in senate committees because the Chamber has discussed only anti-lynching since the session began Jan. 3. President Roosevelt's message commending increased national defense expenditures was expected either this afternoon or tomorrow.

A senate judiciary subcommittee took up a proposal for an investigation of the National labor relations board.

Burke asked the board how it determined whether it was intimidated witnesses, whether it has "favored one type of union organization as opposed to other types" and whether it has violated the right of freedom of speech and of the press.

May Ignore Recommendations.
WASHINGTON, Jan. 27.—(AP)—Some members of the House committee on the House report of the committee would disregard President Roosevelt's recommendation that highway expenditures be reduced to help balance the budget.

Several said they would approve a bill by Chairman Cartwright (D-Okla.) to appropriate the regular sum of \$238,000,000 for each of the 1940 and 1941 fiscal years.

Would Tax Fuel Oil.
WASHINGTON, Jan. 27.—(AP)—Representative Bland (D-Pa.) told the United Mine Workers convention today that he was going to the White House to ask presidential support for a proposed tax on fuel oil.

So far, he said, the "arbitrary" action of the committee had refused to approve his bill to tax fuel oil one cent a gallon.

Such a tax would yield \$188,000,000 a year, he said, and would place coal on a more favorable competitive basis.

Endorse O'Malley Resolution.
MANILA, P. I., Jan. 27.—(AP)—Anti-imperialist leaders today endorsed the resolution of Representative Thomas O'Malley (D-Wis.) for immediate independence of the Philippines and criticized the stand of Congress.

Quezon, responding to a challenge from O'Malley, reiterated his desire for early independence with a temporary continuation of present trade relations with the United States.

Blames Labor Board.
WASHINGTON, Jan. 27.—(AP)—Senator Burke (D-Neb.) declared today many persons believe "no small part of the blame for the present appalling economic depression may properly be laid at the door" of the National Labor Relations Board.

Burke, appearing before a senate judiciary subcommittee in support of his resolution for a congressional investigation of the board, said the NLRB has threatened freedom of speech and of the press, has sided with the C. I. O. in industrial disputes, and has employed many trial examinations who "have little pretense of fairness."

The board's activities, he said, have "produced more strife, more unrest, more uncertainty and more misunderstanding in the relationship between employers and the employer than we have ever had before."

Six Were Killed, Fifteen Injured Scotland Blast

STEVENSON, Scotland, Jan. 27.—(AP)—Five men and a woman were killed and 15 men injured in a two-terrace blast that rocked the plant of Nobel's explosives, one of the largest of its kind in the world.

Windows were shattered by the blast and women and children ran into the streets in panic.

Three thousand men were employed in the factory, specially designed for mass production of high explosives.

WEATHER

(Continued From Page One)
The mercury dropped to 16 degrees at Batesville, Ark., and to 20 at Little Rock. There was light frost at New Orleans and as far down as Florida peninsula as Tampa.

Power and telephone lines were washed out by flooded Rock river in Yates county, Illinois.

Storms buffeted shipping on the Great Lakes and at sea.

Two fishing tugs, the Bonnie and Edna, were washed by ice in Charlotte harbor.

Her propeller damaged the British freighter Pencarrow was taken in tow late yesterday by the tug No. 8, in heavy seas about 60 miles off the Nova Scotia coast.

The 260-foot oil barge Nulube, lost from its tug in rough water about 20 miles southeast of the Mississippi river passes, was found drifting in the gulf by the freighter West Chatain. The freighter summoned tugboats and was towed to safety.

Reports of snow were reported in Ocala and Brooksville, Fla., about a third of the way down on the peninsula.

Big Cypress Receding.
MARSHALL, Jan. 27.—(AP)—Floodwaters of the Big Cypress river which inundated portions of Jefferson were receding today.

The flood level fell four inches from the 27-foot mark which reached at midnight, mark which came within an inch of the record high eight years ago.

Water in some sections of Jefferson was two feet deep. Water was reported in submerged sections of the Marshall-Jefferson highway.

One small bridge was cracked in three places. Three houses were washed away and smashed against a bridge.

Seek to Stem Washouts.
TEXARKANA, Ark., Jan. 27.—(AP)—Texas highway department workers labored in freezing weather today to stem washouts along the flooding Sulphur river.

They piled sandbags hurriedly along the river where the flood waters threatened to inundate the last highway open west of this city.

The main stream of the river, moving at 10 miles an hour, was 31 1/2 feet deep, having risen almost two feet since 12 p. m. last night. Bridge abutments at two low places were being undermined by the swift current and sandbags were being dumped into the hole at the side of the highway.

The last remaining open highway, 47, was open for traffic to Dallas. Highway 67 was out at Mans and Nabes and cars were being routed through Atlanta.

Business

(Continued From Page One)
The commerce department announced that December exports of industrial machinery, automobiles and grain were high.

The general increase in foreign trade during the last few months of 1937 was credited with playing a large part in making the year's total exports aggregate \$3,345,658,000, almost a billion dollars more than in 1936.

The margin of exports over imports in 1937 was \$26,997,000, about eight times as large as that of the previous year.

Wholesale domestic trade, the commerce department said, increased 11 1/2 per cent over last year and reached a total of \$58,000,000,000.

Labor and commerce department officials indicated a belief that the President's appeal Tuesday against wage cuts was largely precautionary. They said few such reductions have appeared so far.

ed national defense program to encourage technological progress.

He decided against dispatching it today when informed the house had adjourned out of respect for Representative Kenney of New Jersey who was killed in a fall from a hotel window during the night.

Seek Highway Aid
AUSTIN, Jan. 27.—(AP)—A Texas delegation headed by Chairman Robert Lee Bobbitt of the highway commission, will leave for Washington tomorrow to urge continuation of federal highway aid before congressional committees.

Fate of the state's building program for the fiscal years 1938-39 and 1939-40 is considered uncertain because of President Roosevelt's recommendation last fall highway aid be reduced one half.

Julian Montgomery, state highway engineer, said hearings on the Cartwright bill, by which the money would be allocated, were scheduled early next week.

The delegation will include Datus Proper, director of the Texas Good Roads Association, and County Judge H. M. Lafont of Plainview, Russell Nelson of Carthage, and Jake Loy of Sherman, representatives of the State Association of County Judges and Commissioners.

Senator Stewler Quits.
SALEM, Ore., Jan. 27.—(AP)—Senator Fredrick Stewler (R-Ore.) resigned today effective Jan. 31.

The senator had previously announced his withdrawal from public life upon the completion of his second term as senator on Dec. 31, 1938.

Hopeh, where Japanese dominate the great cities of Peiping and Tientsin, the railroads, and the main highway, was well represented at the meeting.

One of the decisions of the congress was to stamp out banditry and looting.

Chinese peasants taking refuge in Peiping from along the Peiping-Hankow railway say life is becoming impossible in many districts. Attacks and counter attacks sweep through helpless villages with both sides killing extensively on suspicion of espionage.

Communists are actively engaged in organizing the Hopeh province peasantry. Ten miles back of the railroads they have plastered the countryside with posters saying:

(Shanghai) dispatches quoted Chinese military leaders as announcing that guerrilla warfare on tactics sweep through helpless villages with both sides killing extensively on suspicion of espionage.

The civil war in Spain has become a testing ground for the armaments of all nations, thrown in to aid one side or the other. It is possible that that test one day may determine whether one nation or the other shall find it expedient to change its attitude toward conflict, which could embroil all Europe.

The war, too, is an ever present visual display of the fascist-clique in Europe, with its insidious backing of Spanish insurgents, although the fighting itself seems to have become a holdout, tug of war rather than a fast, grand offensive which quickly would bring victory to one side or the other.

In China, the rumbling of Shanghai's seven charity morgue wagons daily emphasizes war's toll is not alone from the battle front, but also is taken behind the lines by disease and starvation.

Refugees and poor have died in Shanghai since the warfare began there last August, benevolent burial officials say.

Fighting is scattered through much of China, with Japanese in control of the major cities—Shanghai, Nanking, Peiping and others. The Japanese avow their intent to form a Japanese-Chinese-Manchoukuo economic coalition and want a new, favorable Chinese government.

Japan's attitude, it is stated, dispatches indicated today, in a drive to conquer China's lifeline railway, the Lunghai. Chinese were active near Wuhu, 60 miles above Nanking, and heavy casualties by both sides were reported in an engagement there.

The world's chief avowed peace agency, the League of Nations, has been unable to bring any halt to the two wars and its council met today to debate junking sanctions as a league instrument.

Small nations hold sanctions cost them as much as the nation against which they are directed in an effort to halt aggression.

The larger nations, particularly Britain and France, want sanctions left in the covenant text but appear willing to forget them as a practical policy.

China may appeal to the council for sanctions against Japan during the current council sitting; but, sanctions having failed to halt Italian conquest of Ethiopia, it appeared unlikely they again would be invoked.

President Roosevelt, perhaps thinking of these instances, referred a few weeks ago to world events "which have caused me growing concern" and intimated they might necessitate expansion of the navy.

There is talk in Washington congressional circles of legislation to authorize 40 additional warships, and there has been an increase in anti-aircraft guns, increased army personnel, more tanks and planes.

SHANGHAI, Jan. 26.—(AP)—The Japanese drive to conquer China's lifeline railway has been stalled in a tangle for three weeks.

This was disclosed today by an appeal from American missionaries at Tientsin—85 miles north of the Lunghai lifeline—for assurance that Japanese would not bombard mission refugee camps there.

Japanese had asserted their troops occupied Tientsin a week ago, but the appeal to the United States Consul General Clarence E. Guans, disclosed that the city still was in Chinese hands.

UNITED STATES IS SEEKING MEANS FOR BOLSTERING DEFENSE

TWO RAGING WARS AND ARMING OF OTHER NATIONS WAKING AMERICA UP

By The Associated Press
Uncle Sam cast about today for ways to bolster American defenses before a turbulent, quarreling world.

More men, more guns, added strength in the air and at sea, stronger defenses on land—these are the needs advanced by protagonists of armaments increase.

The first reasons for the Spanish civil war which for a year and one-half has fed Europe's war jitters; the China-Japanese war, with its frequent incidents involving foreign nations; armaments building by other nations.

SENATE-HOUSE CONFERENCE COMMITTEE REPORTED BE NEAR AGREEMENT

WASHINGTON, Jan. 25.—(AP)—Farm bill conferees said they had agreed today to increase payments for farmers receiving less than \$200 a year under provisions of the ever-normal granary bill.

Chairman Marvin Hamilton (D-Tex) of the house agriculture committee said the senate-house group would have a compromise bill ready for congressional action "in the next week."

He said "everybody has a different idea about adjusting large payments" under the program.

Senator Pope (D-Iowa) said the conferees agreed to increase benefit payments under \$200 for participating farmers, rather than to place a limit on large payments.

Pope predicted earlier that farm bill conferees would agree on the marketing quota provisions of the legislation would apply to four crops this year—corn, wheat, cotton and tobacco.

He explained that marketing quotas (limits on the amount of the four crops which farmers may sell) would go into operation when indicated supplies reached certain levels. Two-thirds of the farmers voting a referendum would have to approve the system.

Pope said the levels at which these controls would operate had been set midway between limits fixed by the separate house and senate bills.

He said marketing controls probably would not operate for rice, cotton and wheat, but for the four crops which farmers may sell) would go into operation when indicated supplies reached certain levels. Two-thirds of the farmers voting a referendum would have to approve the system.

NUMEROUS TEXAS POETS INCLUDED IN WOMEN'S ANTHOLOGY

FORMER CORSICANAN IS EDITOR FOR TEXAS OF NORTH AMERICAN BOOK OF VERSE

NEW YORK, Jan. 27.—(Sp.)—Sixty-nine Texas poets are included in "American Women Poets, 1937," the anthology issued today by Henry Harrison, New York poetry publisher. This book, edited by Margery Mansfield, secretary of the Poetry Society of America, and illustrated by Charles Bowman, contains almost 4,000 poems by 1,828 living poets, hailing from every state in the union.

Dallas is represented by Marjorie Thorne, Martha Lavina Hunter, Zenobia Crutcher Fainman, Minnie Roberts Dressen, Elizabeth Buell, Josephine Powell Beatty, and Bess Samuel Ayres. Fort Worth is put on the poetry map by Mabel McKinney Wier, Gatha Woods Taylor, Pearl Moore Stevenson, Grace Russell, Jeanne Pendleton Hall, and Margie B. Boswell. Amarillo gives to the poetry world Mary Miller Beard and Mildred Crabtree Spear. El Paso is made additionally famous by Lorraine Russell and Helen Webster. Wichita Falls is represented by Ollie L. Reediger, Fania Kruger, Mary Ezel, Anne Pence Davis, and Margaret Rose Aklin. From Houston come Ida Bassett Botta and Mary Athey. San Antonio poets include Edith DeVilliers-Hertzel, Mary Mihos, Martha C. Cochran, and Iva Milam Blount. Abilene is represented by Udey Jones Wheeler, Vada Hart Webb, Pauline Jones Parker, and Beryl Lesson. From Kingsville come Frances Alexander and Sarah Lois Grime. Waxahachie is given prominence by Mary Lu Cooke and Buena Sowell.

Other poets and cities include Alice Hart (Tyler), Aline Michael (Austin), Eleanor Weinbaum (Beaumont), Edna Lind Cole (Vernon), Ruth Collins (Denton), Edythe Stokes Cramer (Terrell), Lucy Jane Dabney (Huntsville).

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged by Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Treva B. Evans (Woodville), Pearl Owen Gentry (Malakoff), Elsie Rose Givens (Blanco), Guy Harding Goodman (Plainview), Edith Berden Green (Victoria), Corinne Meredith Harris (Wills Point), Ivora Harris (Brackettville), Grace Baer Hollowell (Edinburg), Esther Gearhart Leedham (Randolph Field), Augusta Naunheim (Cuero), Laura Pembroke (Big Lake), Maggie B. Putney (Eagle Lake), Beth Robertson (Mineral Wells), Louise Allen Scott McKinney, Annie C. Shipley (Prosper), Willa Calvert (Electra), Grace Marrs Steed (Winnabow), Hazel Burroughs Swain (Brownsville), Florence Hartman Townsend (Rockwall), Mattie Belle Davis Ward (Atlanta), Jessie Whitehead (Greenville), Catherine Nunley Wilson (Granbury), Virginia Y. O. A. (Hillsboro), Marie Barton (Paris), Marie Proyer (Temple), and Marie d'Autremont Gerry (Weslaco).

"American Women Poets 1937" is divided into thirteen sections, among them Social Vision, American Scene, Poems of Faith, For Lovers of Ardens and Trees, Closer to Home, For Younger Readers, etc. Among the nationally known poets included are Sara Henderson Hay, Jean Stearns, Mary Carolyn Davies, Minnie Hite Moody, Ruth Comfort Mitchell, and Adelaide Love. None of the poems has appeared in any other anthology. "There is something ironic in the fact," writes the editor in her foreword, "that a poet who may write fifty lyrics a year may go through life judged by one poem which had the luck to come to the attention of an anthologist. More than 30,000 poems by 3,000 women were submitted to Miss Mansfield for consideration."

On the heels of this anthology, the publisher announces the preparation of "The North American Book of Verse," to be edited by fifty-two poets, with Joy H. Michaux as editor for Texas. Mrs. Michaux, a former public school teacher, has contributed to a considerable number of publications, and her poetry is included in several important anthologies. Last year she won the Book Prizes offered by the Poetry Society of Texas. She is a member of various organizations, among them the Players Guild, and the Poetry Study Club. All state poets are urged to submit not more than seven poems, published or unpublished, though no poem must have appeared in any previous anthology, directly to Mrs. Michaux, 1007 Bluff St., Wichita Falls, Texas. A self-addressed, stamped envelope should accompany poems.

The publisher hopes that Texas poets will also make a favorable "Sonnet." The first, edited by showing in three other anthologies he is sponsoring. They are "Music Unheard," "Eros," and "Sonnets." The first, edited by Margery Mansfield, Monterey, Mass., will consist solely of hitherto unpublished poetry, a prize of \$100, \$75, \$50 and \$25 will be awarded to the authors of the four best poems. "Eros," edited by Lucia Trent, will contain contemporary love poetry, and "Sonnets," edited by Miss Trent's husband, Ralph Cheyney, will contain sonnets and sonnet sequences. The address of the Sheyneys is 55 Olive Street, Sierra Madre, Calif. Not more than seven poems may be submitted for these books.

In Death Fight?

Franklin T. Fetterer, Jr.

Franklin T. Fetterer, Jr., 39, of Valparaiso, Ind., was questioned by Hobart, Ind., police concerning the fatal beating allegedly administered to Justice of the Peace Robert E. Parks of Hobart. The beating is said to have climaxed an argument between Fetterer and Parks, his brother-in-law, in which Fetterer demanded that Parks contribute to the support of his wife from whom he had filed suit for divorce.

A.-M. Short Course To Be Divided Into Couple of Sections

COLLEGE STATION, Jan. 27.—(Sp.)—The annual Texas A.-M. College farmers' short course will be divided into two sections this year, Director H. H. Williamson, of the extension division has announced. Boys and girls will meet July 6-8, inclusive, and adults will meet July 12-14 inclusive. Both groups heretofore have met at the same time. The short course was divided, Director Williamson said, to permit attendance of more farm people, the college facilities having been a limiting factor on attendance in past years. "We expect to be able to accommodate approximately 8,000 visitors under this new plan," Director Williamson added.

News of County Home Demonstration Clubs

Emhouse Club. "In raising chickens for home use, markets or for egg production the most important thing to do to obtain these results is to select a pure blood stock of chickens," Miss Clara Rettiger told 42 members of the Emhouse Home Demonstration Club Tuesday afternoon in a meeting at the home of Mrs. Robert McManus, with Mrs. Charlie Collins, president, presiding. The agent then discussed the four classes of chickens, giving the characteristics of each group. If chickens are hatched early in the year they are healthier than chickens that are hatched late in the year. After hens have been on the yard for two years they should be culled out and replaced with new hens. The agent then discussed the three band selection system.

Corbett Club. The discussion of our year books was given by the president, Mrs. W. N. Stone Jan. 25, at the home of Mrs. B. H. Kirby to a group of 17 women of the Corbett Home Demonstration Club.

Each demonstrator with her co-operators, were urged to put forth every effort to make this year's work a success. The following demonstrators were appointed by the president, Mrs. W. N. Stone, Mrs. A. S. Thompson, yard; and Mrs. M. E. Roman. The program committee was also appointed, Mrs. J. D. Warren, Mrs. D. F. Roman and Mrs. Clyde Osborne. One new member, Mrs. W. D. Everett, was reported. After the meeting adjourned the hostess, assisted by Mrs. Sam Tucker served refreshments. The next meeting will be Feb. 8 in the home, Mrs. T. C. Baggett. All members are urged to be present.

HIGH FLYING BRINGS SAME SENSATIONS AS ALCOHOL POISONING

By DEVON FRANCIS Associated Press Aviation Editor. NEW YORK, Jan. 27.—The airplane pilot suffering from "oxygen want" at high altitudes experiences the same sensations as a man who incurs alcohol or carbon monoxide poisoning, a congress of aeronautical engineers was told today.

Dr. G. Armstrong, of the army's physiological research laboratory at Wright Field, Dayton, O., said in a paper written for the annual meeting of the Institute of Aeronautical Sciences that "oxygen-want is a form of suffocation." He suggested that airplanes designed for the comfort of the man in the cockpit would do much toward reducing the number of accidents attributed to "pilot error." Contributing to pilot error, Capt. Armstrong told the institute meeting, were a large number of factors which included oxygen-want and fatigue.

"Broadly speaking," he said, "pilot fatigue is similar to doctors' or engineers' fatigue, or farmers' or ditchdiggers' fatigue." Commercial aviation, he added, now had become commonplace and "twice as safe" as it was five years ago. But, he said, "today the human element in flight is the weakest link. No campaign for safety or progress can be successful until that link has been properly strengthened."

He attributed pilot fatigue to wind pressure, cold, eye strain, noise, vibration, carbon monoxide and low humidity, and he listed deafness as "an occupational disease among pilots pilots," partly due to constant change of altitude.

A. AND M. MIDTERM EXAMINATIONS OPEN SATURDAY, JAN. 29

COLLEGE STATION, Jan. 27.—(Sp.)—Much "midnight oil" is being burned at Texas A. and M. College as the cadets prep for their semi-annual exam with semester examination questions. First semester exams will start Saturday Jan. 29, and will continue through Friday February 4.

Countering all the worry the examinations cause the students is the statement of Registrar E. J. Howell that "Contrary to general belief, a very small percentage of the students fail to pass." Registration for the second semester will begin Saturday morning, Feb. 5, and will continue through Monday, Feb. 7. Classroom work will begin Tuesday, February 8.

Approximately 4,500 students are expected to enroll for the second semester Mr. Howell said. Fifty-seven students have applied for degrees to be awarded at the close of the first semester.

CUFF LINK CLUB MEMBERS BE GUESTS PRESIDENT DINNER

WASHINGTON, Jan. 27.—(Sp.)—Members of President Roosevelt's "Cuff Link Club" will be among the 20 guests at his Saturday night birthday party in the White House.

The members will be wearing gold cuff links which Mr. Roosevelt gave them to commemorate their experience in his vice presidential and presidential campaigns, as well as in the days when he was assistant secretary of the navy. Justice Samuel I. Rosenman of New York, who assisted in the 1932 and 1936 presidential races, received his link last year. Other "cuff linkers" are Secretaries Stephen T. Early and Marvin H. McIntyre; Kirke L. Simpson of Washington; Charles McCarty, assistant to the late Louis McNichols Howe when he was Mr. Roosevelt's confidential secretary; James Sullivan of Boston, an engraver on the 1920 campaign; and Thomas Lynch, now a New York Port appraiser.

The President will be 56 Sunday, but he and Mrs. Roosevelt decided to have the birthday dinner the evening before. After the dinner, Mr. Roosevelt will make a brief radio talk in connection with the birthday ball, giving all over the nation to raise funds to combat infantile paralysis.

Mr. Roosevelt is approaching the anniversary in good physical health, his personal physician reported.

METHODIST CHURCH, DOCTRINES, HISTORY WILL BE DISCUSSED

The Methodist church, history and doctrine, will be discussed for four successive evenings beginning Sunday evening at the Eleventh Avenue Methodist church at 7:30 p. m. Dr. C. E. Gray, presiding elder of the Corsicana district, will speak Sunday evening and Tuesday evening. Dr. Roy A. Langston, pastor of the First Methodist church will speak Monday, Tuesday, Wednesday, and Thursday, 7:30 p. m. These services are arranged in keeping with the Aldersgate year, and they will be informational and inspirational.

J. TOM COULSON, FORMER CORSICANA DRUGGIST, IS DEAD

DALLAS, Jan. 27.—James Thomas Coulson, aged 66 years, vice-president and general manager of the Southwestern Drug corporation, died at a local hospital Wednesday following a short illness. He was formerly a resident of Corsicana. Funeral services will be held Friday morning at 10 o'clock with interment in Hillcrest Memorial Park.

Mr. Coulson was born in Kentucky and moved with his family to Corsicana in 1878. His father was a well-known minister. He came to Dallas approximately 25 years ago and engaged in the retail drug business, later becoming president of the Texas Drug company which was merged into the Southwestern Drug corporation in 1929 when he assumed the post he held until his death. For many years Mr. Coulson was a member of the Highland Park Presbyterian church, a Mason and a Shriner. Mr. Coulson started his business career in Corsicana and for many years operated a drug store here, having previously been connected with the E. A. Johnson drug store. Surviving are his wife, three daughters, W. J. Coulson, Coleman Ray, Coulson, Pasadena, Harris county, and Roy Coulson, Oklahoma City; three sisters, Mrs. R. M. White, Mrs. John Carney and Mrs. Sadie O'Connell, of Greenville, and other relatives.

PREPARATIONS FOR MASONIC FUN FEST REPORTED COMPLETE

Preparations for the spring "Fun Fest" on Friday night were reported complete Thursday by General Chairman Sam Daiches and 250 representatives of the Masonic fraternity from Corsicana and surrounding area have indicated they will be present. Registration for the event is scheduled to start at the Masonic hall at 6:30 Friday evening, with the elaborate feed due to be served promptly at 7:30 and the festivities will get under way immediately after the feed. More than thirty Mexia Masons are expected to be present and all lodges in the county have indicated they will be represented. Chairman Daiches reported that no more reservations were available, and the limited class of novices had been filled several days.

Active Campaign Is Now Under Way

An active campaign is now under way in the state against those making a false claim with the state for a refund for motor fuel taxes. It is pointed out by J. W. McReynolds, director of motor fuel tax division, Austin. A recent conviction in Tarrant county brought a fine of \$1,000 and costs, according to Mr. McReynolds.

CORSICANA, TEX., JAN. 25, 1935

HIGHER PRICES, LOWER WAGES.

In a statement to General Motors' 375,000 stockholders, Chairman Alfred P. Sloan gives his views on "technological progress" and the best way of capitalizing such progress.

The biggest business problem today, he holds, is that of the industrial workers. Accordingly as they prosper, business prospers. Thus the wages they earn and the prices they pay are important to everybody. The most important thing is the relation of wages to prices.

"If to increase wages means to increase selling price," he says, "little is gained and perhaps much is lost. To increase wages, and at the same time to maintain, or still better, reduce selling prices, is the true road to more things for more people—to a higher standard of living."

Mr. Sloan therefore takes just pride in the fact that the automotive industry, while raising hourly wages 18 per cent in the last 12 years, has reduced car prices "per pound" 45 per cent.

This is the trend of all industry in the long run, though the general process is slow and the gain in workers' purchasing power is slower in some industries than others.

The more rapidly this process goes on, and it should be increasingly rapid nowadays, the nearer we come to an "era of abundance," in which industry and trade may prosper themselves, and help everybody prosper, by striving to sell everything as cheaply as possible rather than as dearly as possible. This is not only the generous attitude for business, but is probably the way to save capitalism.

AERIAL WARSHIPS.

The public lacks expert knowledge of national defense and yet may be a pretty good judge of our needs. It is probably correct to say that the public is better pleased than it expected to be with the government's plans for armament increase.

The final decision, from late reports, is to omit the two battleships first planned, to cost about \$60,000,000 apiece, and concentrate on aircraft and submarines, with a new flock of the small, swift vessels called destroyers. This means obviously a defensive fleet to guard our own cities and shores. It means an economical program, too. We seem to get more defense at less cost and less risk. The cost of a big battleship, which as the Spanish war has shown can be sunk by one air bomb dropped down a funnel, will pay for a great fleet of modern warplanes.

Present plans seem to indicate that at last the realities of modern warfare as demonstrated in foreign wars, are appreciated in Washington, and we are on the way to making the air not only our first line of defense but perhaps our main defense. Many experts agree that it is the obvious strategy for a country like ours, whose foremost problem is guarding a vast area from the intrusion of foreign warplanes.

More than usual just now are public speakers "subtracting from the sum total of human knowledge."

Salesmanship and sales-resistance develop just like offensive and defensive armament.

CRANKMIKE ON CREEDS.

Speaking of creeds, old Crankmike said:
"We'll know the truth when we are dead,
But I'd prefer no creed at all
Than one established as a wall
To bar one friend, whoever he be
From dropping in to visit me."

"I have preferred, and well I ought,
The teachings which my mother taught,
But I am glad she didn't say
'From all who differ turn away!'
Within the limits of this creed
Dwell all the friends you'll ever need."

"I should have hated her, had she
Built such a towering wall round
me
And cut me off from friendships rare
Which grace religions everywhere.
I could not spend my whole life
Through
With Catholics, Protestants or Jew."

"No single group, how fine it be,
Could narrow down this life for me.
Out of all creeds our friendships grow
And I am glad that this is so:
Glad that no church can draw a
line
Twixt me and any friend of mine."

BRILLIANT BOSS

President Vargas of Brazil, who came into general notice lately by assuming dictatorial powers, is said to be an attractive gentleman and "a man of extraordinary ability." This is the language of Jerome Davis, former professor in the Yale Divinity School, and now president of the American Federation of Teachers. He should be a fair judge of dictators, for he knows Stalin and had a famous interview with that gentleman some years ago. He reports, after visiting the Brazilian boss:

"The present regime in Brazil is the stark, unabashed dictatorship by Getulio Vargas, the President. The secret of his power is the manipulation of army officers. As long as he can control a majority of the army he is safe. He also tries to secure the backing of business, and has now the support of the majority, who are willing to tolerate almost anyone, provided profits continued and civil war is avoided."

That is illuminating. Most of the dictatorships have gone over with the help of the army and the tolerance or active support of worried business men.

Another thing: "At present there is no liberty of the press in Brazil," says Dr. Davis. "Even the correspondents of the American press told me they could not write what they wished, but only what would get by the censors." That runs true to form. Dictatorship cannot prevail where the press is free. A free press is the best safeguard of a free people.

ANIMALS ON THE ROAD

It is a well established rule of law and humanity that a motorist colliding with another car or a person must stop and do whatever the situation calls for before proceeding again. It is also coming to be regarded as a moral duty, if not a legal one, to stop when striking a domestic animal such as a horse, cow or dog, and acknowledge responsibility to do what can be done for the creature.

A magistrate in Cornwall, Ont., carries the principle farther. He declares that drivers must "remain at the scene" of all accidents involving animals. The case immediately involved was that of a dog, but he holds that it doesn't matter what kind of animal it is—excepting only a skunk.

Most motorists will still feel free to make other exceptions, such as a squirrel, groundhog, crow and various other forms of wild life likely to get on the road and be hit or run over unintentionally. Many will even have mental reservations regarding such domestic creatures as chickens and ducks. But certainly a driver running into any inoffensive creature, whether domestic or wild, should be as honest and humane as possible in the circumstances.

Business leaders better be careful about having so much money to invest when confidence returns. The confidence men will be after 'em.

"You see!—Democracy doesn't work!"

THE MILITARY RACKET

It is a familiar story that predatory nations, justify their aggression by the claim that they need territory for their overflowing population, don't use it when they get it. Thus Germany was never able to get many German colonies when she had them. Mussolini, with all his autocratic power, has failed to colonize and develop Libya in northern Africa, and can only get Italians to Ethiopia by drafting them.

Getting around to Japan, the latest military power to take the warpath for colonial expansion, and apparently doing very well for herself in China, we naturally inquire how she got along with colonizing Manchoukuo, since she seized it six years ago to accommodate her overflow.

The result doesn't seem very encouraging. Today 5 per cent of the people in that province are said to be Japanese. Some of them were there before the coup that put Japan in control. Most of the new residents seem to be soldiers and government officials. Of actual, new immigrants there are few. The Tokio government planned to have 6,000 Japanese families settle there last year. Actually the records show only 600 men without families.

And how will it be with China, if Japan really conquers and holds that vast country? Probably the Japanese will continue doing as the ancient Romans did—merely hold conquered provinces by military garrisons and exploit them in taxes, trade and minerals.

FRIENDLY GESTURES

The Japanese newspaper Nichi Nichi raised a relief fund for the Panay victims. The popular subscription brought in 7,012 yen, more than \$2,000. This the Nichi Nichi presented to Ambassador Grew at Tokyo.

The ambassador thanked the newspaper and stated that, as the United States government did not believe its citizens should accept direct monetary contributions in cases of this kind, he planned to devote the money to some object for promoting American-Japanese friendship.

This incident in itself will preserve some of that friendship, which has long existed and is not yet wiped out by the Japanese militarists in China. The Tokyo newspaper demonstrated that the Panay outrage did not meet with its own approval of that of its readers. The courteous gesture was not rebuffed but was given equally courteous recognition and appreciation. Probably nothing the ambassador can do with the money will be more valuable than this simple interchange of courtesies.

ANNUAL MEETING OF LOCAL CHAPTER OF RED CROSS FEB. 4

Navarro County Chapter, American Red Cross, will hold its annual meeting for the consideration of reports, election of officers, and for the transaction of such other business as may properly come before the meeting at the Corsicana Chamber of Commerce on Friday, February 4, 1935, at 4 o'clock in the afternoon. This is the advance notice required to be published at least ten days before the date of meeting in a newspaper of general circulation in the territory included within the jurisdiction of the chapter.

Every person within the Chapter territory, who has paid Red Cross membership dues for the year or who is a Life or Patron member, is eligible to attend the meeting and vote.

NAVARRO COUNTY IS PROMISED HIGHWAY IMPROVEMENTS SOON

AUSTIN, Jan. 25.—Various county delegations seeking highway improvements before the meeting of the Texas Highway commission Monday were advised that the commission was "nursing every dollar" to insure improvements and construction where immediate needs must be met. It was stated that the uncertainty of federal aid and unknown flood damage made this project necessary at the present time. This prevented prospective commitments to counties for construction and for designations of future highways.

Plans have been approved for widening of narrow sections of highway 31 from Richland creek to twelve miles east of the Hill county line, and that surfacing will be done on highway 22 from Frost to the Hill county line, five miles, and that plans are now 70 percent complete.

Football Awards Given Wednesday To Kerens Players

KERENS, Jan. 25.—(Sp.)—Football awards were given at the chapel program held in the Kerens High school auditorium Wednesday morning. After a group singing of "Home on the Range," and "The Eyes of Texas," led by City C. Harris, Superintendent G. E. Wilemon, in a short talk mentioned some of the other students and organizations who had been outstanding this year.

Recognizing them as they were asked to stand, were Miss Dhnke, speech teacher, and the cast of the senior plays; Miss Mills and the "Bobcat Scratch" staff (school paper); Mr. Foff and the girls' basketball team; Principal Pritchard, Prof. Cloud and his class in agriculture, who attended the national meeting in Kansas City and brought back several of the trophies and prizes awarded Mr. Smith and his famous football boys.

Coach Smith, in charge of the remainder of the program, awarded to the following seniors beautiful new sweaters in recognition of their achievements with the Bobcats: Reynold Farris, Leonard Jackson, Billy Ray Noble, Captain Ray Tramel and Billy White.

The juniors receiving gold footballs were Robert Cunningham, Danny Grant, Keith Jennings, Clayton Johnson, Arlon Stoker, Billie Thompson and R. A. Ward. Sophomores, Dade Goforth and Jimmy Shelton.

The senior girl pep leader, Miss Gerry Norton, was also awarded a sweater.

OFFICERS STUDYING SUIT FILED MONDAY IN BEER ELECTION

Cleo G. Miller, criminal district attorney, and J. C. Jacobs, assistant, are studying the suit filed Monday by E. E. Miller et al. vs. Paul H. Miller et al. election contest for the recent county-wide beer election held in the county. An answer will be filed in the suit by the criminal district attorney's department within the next few days.

The defendants have 10 days in which to file an answer in the proceedings, it was indicated by the suit filed by Richard and A. P. May, attorneys, in the district court.

Procedure in the calling of the beer election by the commission's court last Monday and other matters were attacked in the petition filed.

Navarro county went "dry" by 439 votes in the county-wide beer election held Dec. 28, 1937. The petition seeks to set aside the canvassing and declaring of the results by the commissioners court, and the winning of the ban against the sale of beer in certain precincts in the county, Feb. 2, and thereafter.

Three Out Five Victims Syphilis Ignorant of Fact

SAN ANTONIO, Jan. 25.—(P)—Dr. Paul O'Leary, head of the section of dermatology of Mayo clinic, Rochester, Minn., was one of the guest speakers of the international post-graduate medical assembly which opened this morning. Dr. O'Leary said that three out of every five victims of that dread plague, syphilis, are walking the streets in ignorance of the fact that they harbor the disease. And in this ignorance, Dr. O'Leary said, they are letting slip away that period of the disease when cure is nearly certain.

Two Kerens Youths Join U. S. Marines

KERENS, Jan. 25.—(Sp.)—Elmo L. Cunningham and Riley O. Cooper, Jr., have been accepted for enlistment in the United States Marine Corps and have been sent to the marine corps base at San Diego, Cal. for training. Young Cooper is the son of Mr. and Mrs. R. O. Cooper, and Cunningham is the son of Mrs. Edna Cunningham of Kerens.

APPLICATIONS FOR PURCHASE LOANS BE SENT LOCAL OFFICE

A notice that all applications for loans with which to purchase farms under the Bankhead-Jones act must be sent to the Corsicana office of the Farm Security Administration at 214 North Main street was issued recently by E. L. Sponberg, county supervisor. The supervisor said some applicants had been sending the papers direct to Washington, which resulted in extensive delay, since all must be passed upon by the county committee before being forwarded to the regional office in Dallas. In Navarro county, four loans will be made to white farmers and one to negroes. No applications were reported from negro tenants to date.

Member of Panay Crew Writes to His Mother Here

Mrs. L. L. Puckett received a letter today from her son, Vernon F. Puckett, member of the crew of the ill-fated Panay.

The letter was dated December 28, 1937, and the postmark was U. S. S. Augusta, Dec. 29, 1937, Shanghai, China.

The chief petty officer sent his best regards to all his friends and said he was getting along fine. He is now aboard the Augusta.

This is the first letter Mrs. Puckett has received from her son since the Panay bombing although she had previously been informed by the navy department that her son was not injured.

WEATHER VARIETY VISITED ON CITY DURING TUESDAY

"Variety is the spice of life" so goes an old saying and the weatherman evidently believes in the adage. For proof look at the variety of weather here Tuesday. A light dust storm, brought in from the northwest by a blustery, chilling wind, settled over the city early in the morning. For a while it was alternately cloudy and clear with the temperature rising slowly as the morning continued. Shortly afternoon a flurry of snow started falling and continued for several minutes with the sun shining and the sky perfectly clear. The snow evidently fell from the clouds that drifted south immediately after the fall started.

The dust had practically drifted away by 1:30 o'clock in the afternoon but the skies were partly cloudy.

Clear and colder is the prediction for this area by the official weather bureau.

FUNERAL SERVICES FOR DR. HODGE ON TUESDAY MORNING

Funeral services for Dr. Z. T. Hodge, aged 73 years, dairyman, and resident of this community for the past 40 years, who died Sunday at an advanced age, were held Tuesday morning at 10:30 o'clock from the chapel of the Corley Funeral Home. Interment was made in Oakwood cemetery. The rites were conducted by Rev. N. A. Woychuk, pastor of the Cumberland Presbyterian church. He was a native of Tennessee.

Surviving are his wife, seven sons, Herbert Hodge, Kalamazoo, Mich.; Benton Hodge, Elgin; F. E. Hodge, Los Angeles, Calif.; E. S. Hodge, San Angelo; A. T. Hodge, Fort Worth; W. C. Hodge, Corsicana, and Marion Hodge, Fort Worth; a daughter, Mrs. G. W. Wade, Leander, and a number of grandchildren and great-grandchildren.

Palbearers were J. B. Nichols, B. V. Treadway, F. C. McCusker, Jack Megarity, W. A. Hammett, D. R. Nelson and A. H. Bonner. Honorary pallbearers were J. A. Horn, John Murchison, Dr. L. E. Kelton, D. W. T. Shell, A. G. Elliott, F. A. Widmer, Hugh Cummings, Grover Bowden and M. Smotherman.

CONFIDENCE
Keeps the Wheels of Business Turning

A LARGE part of the nation's business activity is financed through bank credit. This steady flow of credit is possible because depositors bring their money to their banks for safekeeping.

It is easy to see how important confidence is to the maintenance of this credit structure. Depositors must have confidence in their banks. Banks must have confidence in business. Business men must have confidence in the future before they will embark on new enterprises.

This bank appreciates the confidence of its depositors, and pledges itself to continue the policies of sound, helpful banking that mean so much to the continued development of our community.

NAVARRO GIRLS ARE VICTORS OVER BARRY IN THEIR DIVISION

EAST NAVARRO BOYS DOWN TIGER ENTRY BY CLOSE SCORE LAST NIGHT

Kerens high school won the 1937 annual Y. M. C. A. boys invitation basketball tournament by defeating Corsicana high school, the defending champion, 25-23 on the Y court here Wednesday night, and Navarro girls annexed first place in their division by nailing out Barry 23-21. Because they won their semi-final games last week-end, Corsicana boys and Barry girls took a death-grip on second place in their departments.

Other games last night resulted in Blooming Grove eking out a 17-12 win over their consolation game over Navarro for third place in the boys event, and Blooming Grove's girls blasted Powell 44-28 for third place in the girls tournament. Emhouse, defending champion of the girls tourney, did not play in this year's schedule.

MAKE THIS MODEL AT HOME

THE CORSICANA DAILY SUN DAILY PATTERN

"AT HOME"—THIS CHARMING FRONT FOR DAYS BUTTON-FRONT FROCK: Pattern 4705 * by Anne Adams

Rushed days are in the offering for active housekeepers! But a morning full of chores won't bother the clever woman who stitches up this easy-to-don coat-frock! Anne Adams knows how charming is a dainty at-home dress made of dainty figured chambray or a colorful checked tissue-gingham. Don't overlook the style of the puffed-at-the-shoulder sleeves, youthful pointed collar, beautifully fitted waistline and trim panels that contribute to a graceful flare. Your collar and cuffs will be very attractive if you accent them with contrasting organdy ruffling. Be sure your buttons are bright in hue.

Pattern 4705 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, Beauty Diary

of Edna Kent Forbes
THE BALANCED DIET.

If bothered about arranging a balanced diet, you may work out endless numbers of means by remembering the classifications in today's talk.

The body requires protein foods for structure, mineralizing foods for the support of life itself, carbohydrates for heat and energy, then fats to pad and oil, saving wear and tear on nerves. If you know how to proportion these, we may have the perfect diet. People who do a great deal of manual work, especially those who are doing it outdoors, may break all the rules, seemingly, although they too, may be prematurely, get diseases that show they have clogged their blood streams with the waste of years. Those who have no reason for expending energy through strictly manual efforts, can not eat the same diet that the outdoor hard worker needs. It is all a matter of learning something about foods, and to classify them. Find out then just what are your own personal needs. The 80 per cent alkaline and 20 per cent acid should be a guide also.

Proteins are eggs, meats, fish, all seafood, nuts, cheese and the legumes. They are all on the acid side, too. The mineralizing ones, and mostly alkaline, are all the vegetables, green, and fruit. That is fresh fruit. Carbohydrates are dried fruits, because of their sugar, natural sweets, fresh starchy food like bananas, chestnuts, green lima, all baked potatoes, and starches take in all cereals, fine or whole. Oils include butter, coconut, cream, salad oils.

An average selection from these four classes would mean a restrained amount of protein, carbohydrates and oil, while from two-thirds to three-quarters of every meal be made up from the mineralizing foods.

Mrs. J.—For tinting stray grey hairs, try henna. You will not get much from sage tea, as it gives only a pale tan color. Henna may be used to give whatever depth of color you need. Direct-

tions always come on the package. But if you need any further information, send to me, enclosing a stamped, self-addressed envelope for the mailing, and I shall forward directions for tinting, or deepening the shade.

M. G.—Puffiness under the eyes would mean that you had some trouble needing a doctor. A sluggish liver will do this at times, but better get at the cause and rid yourself of the trouble. Meantime, use an astringent on the places.

Mrs. B. C.—There are schools that teach dressmaking, and often such courses are given in night courses at the usual day schools. There are also correspondence courses. In the last few years, some of the department stores have given dressmaking lessons at certain times of the year. The idea is to induce women who must economize to buy more patterns and materials by the yard. N. E.—Butterbilk is not fattening, and it is healthy, too, as it counteracts acid. It is really a good food.

D. D.—Try sulphur ointment on the pimples and it will keep them from further infection of the skin. When pimples continue, even when the cause for them has been cleared up, it is usually found that the eruptions are repeating themselves, because they are not treated and healed as they should be.

If you have any beauty problems you cannot solve, write for Edna Kent Forbes' three NEW beauty booklets: (1) "Fifteen Minutes a Day for Beauty," (2) "The Finer Points of Beauty," (3) "Eating and Drinking for Beauty." Send ten cents (in stamps) for each booklet, to pay for printing and handling and enclose a stamped, self-addressed envelope (s.a.s.e.). Address Edna Kent Forbes, c/o this paper.

MARKET PARTIALLY REGAINED BALANCE ALL DEPARTMENTS

By VICTOR EUBANK.

NEW YORK, Jan. 27.—(AP)—A

slow rally that lifted selected

stocks fractions to 2 or more

points in today's early market

proceedings faded in the latter

part of the session.

Quiet but persistent offerings

appeared near the final hour and

in the closing period with the

thicker tape behind, the morning's

advances were converted into loss

es of 1 to 3 at the worst. Extreme

declines were reduced in the last

few minutes.

Transfers approximated 1,100,

000 shares.

NEW YORK, Jan. 27.—(AP)—The

stock market partially regained

its balance today as offerings

dried up in virtually all depart-

ments.

While the come-back pace was

extremely slow, recoveries run-

ning to point or so were in

evidence near the fourth hour.

Following a slightly lower open-

ing, gold mining issues came in

to prominence with Dome and

McIntyre jumping nearly 100

points. Other gains were made

by the prospecting business was

held up. Except for this, export

business was flat.

TRINITY RIVER EXPECTED REACH CREST AT TRINIDAD ON THURSDAY

High waters were receding in

the smaller stream areas and on

the upstream vicinity of Cham-

bers and Richland creeks. Tues-

day morning while Trinity river

was still rising at Trinidad.

Practically all of the small

streams were back within their

banks Tuesday and the crest of

Richland and Chambers had

passed the center of the county.

Although there is still danger at

the confluence of the creeks in

the southeastern section of the

county and in the remainder of

the distance through northeast-

ern Freestone county to the Trin-

ity river.

Chambers creek was falling at

the Highway 75 and Hogan

bridge crossings early Tuesday

and it was reported that some

recession had been noted at the

Highway 31 crossing east of

Corianna. Richland had not

fallen at the Highway 75 cross-

ing near Richland, however, but

unless additional rains fall, no

serious damage is expected.

Brar creek had fallen where-

ever, but the Highway 75 cross-

ing, due to the large waves lash-

ing the road bed from the swollen

stream and inundated bottoms.

The waters leaked only a foot

of reaching the Corianna belt

line. It was reported, however,

that no additional damage

would result and that the stream

would subside before the crest of

the big rains and high waters

from the Dallas vicinity in the

Trinity reaches the eastern part

of Navarro county.

The Trinity crest at Dallas was

reached Monday night and will

reach Trinidad about Thursday

noon. By the time the upstream

flood waters reach East Navarro

county, the local streams burden

ed of excessive precipitation will

have been emptied into the river.

Workers were busy all day

Monday sandbagging and watch-

ing weak spots in levees along

Chambers creek north and east

of Corianna, but no breaks were

reported.

County commissioners report

considerable damage is expected

to be found to bridges and out-

letting due to creek bottoms after

the waters subside, but no estimate

of the damage is available at the

present time.

No interruption of traffic in

any direction by highway

Mrs. W. L. Bain, Jr., Hostess For Kerens Sorosis Club Tuesday

KERENS, Jan. 26. (SPL.)—Mrs. W. L. Bain, Jr., entertained the Sorosis club at the home of her mother, Mrs. Elmer Norton, Tuesday afternoon.

Mrs. J. C. Clayton, vice-president, presided for Mrs. A. R. Carroll, as she was leader of the program.

Plans for the box supper to be held at Whorton's Lodge, Friday evening, were perfected. Mrs. Monroe Speed was welcomed as a new member. A committee composed of Miss Ruby Horis Crawford, Mrs. Jack Anderson, and Mrs. L. E. Gray was appointed to complete arrangements for the club's open house on Feb. 8th at which time the Pioneer Literary club will be guests.

The high-light of this occasion will be the presence of Mrs. Richard Turrentine of Denton, state president of federated clubs. Mrs. Carroll in charge of the program, entitled "A Child's Development in Painting," took her hearers (whom she had asked "Father Time" to make children just for the day) on an imaginary journey through the art galleries of London, England.

Mrs. L. E. Gray, the first guide, explained the significance of Sir Joshua Reynolds' "The Age of Innocence," "The Strawberry Girl," and "The Tarn Ash" by Miss Vitula Miller, second guide.

Mrs. Leroy Mills, third guide, explained Van Dyke's "Baby Stunt," and "The Tarn Ash" by

Sully, and Raeburns "Boy and the Rabbit." A round table discussion was held on "What Picture in My Living Room I Love Best, and Why?" Mrs. Norton, assisted the hostess in serving a lovely refreshment plate in the Valentine motif; each plate also held a unique favor made of gumdrops.

Kerens Baptist WMU.
KERENS, Jan. 26. (SPL.)—Mrs. C. W. White was the efficient teacher of a very interesting book Monday afternoon when the Baptist WMU met in the church for instruction on "The Rebirth of a Nation."

Mrs. White had her subject well in hand and used aids, maps and posters she had prepared in advance.

The men's Bible class room where the program was held, was very springlike with sprays of red and pink japonica.

Present day items of interest on Palestine were stressed all through the study course. Twenty women answered to roll call, despite the inclement weather.

Justice Cardozo Urged To Remain On High Court

WASHINGTON, Jan. 26. (AP)—A usually well-informed authority said today Justice Cardozo had no official intention to retire from the supreme court, but that the Chief Executive had urged him to remain.

The justice, before he became seriously ill, was reported to have sent word to the President through friends that he believed his health would not permit him to serve longer.

Barring further retirements, the court will be back to full strength when it reconvenes Monday. Senate confirmation yesterday qualified Solicitor General Stanley Reed to fill the vacancy caused by the retirement of Justice Sutherland.

M'DONALD

(Continued From Page One)
McDonald's friends and political supporters had profited from his leasing policy.

Answers Welmet.
Sen. R. A. Weinert of Seguin asked the commissioner how a high royalty bid ever would be worth anything if drilling could not be compelled. McDonald answered the lessees would drill because they were eager to make money on a lease.

Questioned further about his refusal of a cash bid of more than \$100,000 on one tract to accept a high royalty offer, McDonald voiced confidence the state's returns from oil production on that property would aggregate \$500,000.

C. W. Kennon, secretary-treasurer of the J. K. Hughes oil company of Mexico, was questioned by Stout concerning bids on Gulf coast tracts awarded last year.

He said W. M. Harris, an Austin attorney, had asked him if he would be interested in leases if he (Harris) could get "information" on them and Harris had bid on several tracts in Harris, Kennon's and others names.

Admits Assignment.
Stout and committee brought out that Kennon paid Harris \$3 per acre and that on tract 296 in Laguna Madre Kennon assigned 50 per cent of his interest to the Hughes company and 50 per cent to Harris and J. R. Prince. He said the assignment was in accordance with an agreement previously entered by the parties.

Under further questioning he said he "imagined" the land office received \$1 an acre on leases for which he paid Harris \$3 an acre or that on 1915 acres in several tracts awarded in one letting the state received \$1,915 while Kennon paid approximately \$6,000.

Introduced into the record as exhibits was a check on a Mexico bank for \$2,575 payable to J. R. Canham and another for \$3,170 payable to L. E. Harwell.

Kennon explained he had had conversations with Canham, Prince and Harwell and understood they might get some of the leases to be submitted to bids. Kennon said it was right to pay other private parties for interests in state tracts because they had obtained maps and other information concerning productivity of the properties. He knew of no collusion, he said, between these private parties and any state official.

Rejected High Cash Bids.
The commissioner yesterday said he had rejected highest cash bids in instances to accept what he considered better offers promising large royalty payments from oil and when found.

McDonald admitted, however, there had been no oil production on submerged coastal lands leased during his 13 months term.

Net Earnings Of Major Companies Show Big Slump

NEW YORK, Jan. 26. (AP)—Net earnings of the first 17 major companies to report results of the fourth quarter last year declined 34 per cent from the corresponding period in 1936.

The sharpest business slump in recent history occurred in these three months.

Income of the 17 concerns in the final quarter of 1937 totaled \$32,630,845 compared with \$71,014,656 the year before.

Sharp gains during the first nine months, however, were sufficient to carry earnings for the 12 months period 10 per cent above 1936. Net income reported by the first 25 firms, including the 17 issuing quarterly statements, was \$329,389,349 against \$300,574,009.

In Office.
The commissioner declared a logarithm method he used was the "fastest way" of determining the best bid and asserted lessees always went to the highest bidder.

Senator T. J. Holbrook of Galveston, committee chairman, asked McDonald why he had not called for bids on a definite basis of one-eighth royalty with the award made to the highest cash offer.

"I don't have that authority," McDonald replied. He said the law set a minimum of one-eighth royalty and \$1 an acre.

The questioning was divided into two phases—McDonald's rejection of high cash bids on submerged lands and his renewals of a lease to the Venmex oil company of Wichita Falls on 345 acres of riverbed in the new K. M. A. field near production. Governor Allred had criticized him on both matters.

A. R. Stout of Ennis, representing Allred in the investigation, attempted to show friends of McDonald from Eastland had profited through his submerged land leasing policy but McDonald insisted he always accepted the highest bid.

To Holbrook's query about a lease in Laguna Madre near Corpus Christi for which Humble company's bid of approximately \$100,000 was rejected, McDonald replied:

"There's not a doubt in my mind that the higher royalties will exceed \$100,000. There's already a good producing well only 1,026 feet away."

The Venmex lease testimony was largely repetition of contentions made during Allred's controversy with the commissioner.

Courthouse News

District Court.
Arguments of the attorneys in the case of G. C. Kent vs. Mrs. Lucille Noble, et al., debt and foreclosure, were being presented Wednesday in the district court. Testimony was concluded Tuesday afternoon.

Assessor and Collector's Office.
There had been 3,943 poll tax receipts issued Wednesday morning in the assessor and collector's office. There were 400 issued from Tuesday morning to Wednesday morning. The customary last minute rush is anticipated by the deputies. Improved road conditions Wednesday following the rains earlier in the week are expected to increase the number paying poll and other taxes during the remainder of the current week. The deadline for poll and other payments will be midnight Monday night, Jan. 31.

Sheriff's Office.
County officers Wednesday were seeking some trace of a negro who was shot a \$10 forged check on Sheriff Rufus Pevehouse Saturday night at Whorton's Grocery. The check was made to cash and when presented at the bank payment was denied.

Deputy Sheriff Jack Floyd conveyed a person adjudged of unsound mind to the state institution at Wichita Falls Wednesday.

A woman was arrested Tuesday night by Deputy Sheriff J. M. Westbrook at a local tourist cabin after her clothing and the bed in the cabin had been set afire. She was released after investigation was made by the criminal district attorney's office.

"Compacts between states do not confer upon or delegate to the states any federal power," he said. "They certainly would be unconstitutional if they interfered with individual property rights, as in the case of attempts to control tobacco production. Stockholders of Savings and Loan Association Meet

The annual shareholders' meeting of the Corsicana Federal Savings and Loan association was held Monday afternoon and reported officers indicated a very successful year with four per cent paid in dividends.

Two directors were renamed including F. C. Paul and H. D. Johnson. Other members of the board will include Will Thompson, A. F. Mitchell, J. N. Edens, J. O. Burke and C. L. Jester.

At the regular directors' meeting, all officers were renamed. The list of officers: Will Thompson, president; A. F. Mitchell, F. C. Paul, J. O. Burke, vice-presidents; H. D. Johnson, secretary-treasurer.

According to the recent figures of the Federal Home Loan Bank of Little Rock, with which the Corsicana association transacts business, a total of 4,409 loans were made to Texans in the last half of 1937, amounting to \$3,215,000, with more than half of the funds used to construct new homes and approximately 25 per cent to purchase existing houses.

Investments in the various associations also showed increases, according to the report, with more than \$5,000,000 invested in the various units in the last half year.

Kerens Bride Was Honoree of Lovely Shower Wednesday

KERENS, Jan. 25. (SPL.)—Mrs. Tullman Reed, bride of a week, was the honoree at a miscellaneous shower, given in the home of Mrs. R. P. Walker, Wednesday afternoon, from 3 to 5 p.m.

The home was lovely with spring blossoms, bowls of calendulas, japonica, narcissi and stock in artistic arrangements.

Guests were greeted at the door by Mrs. Walker and passed down the receiving line composed of Mrs. L. E. Gray, Mrs. Roy Martin of Corsicana, aunt of the honoree; Miss Margaret Ivey, sister of the honoree, and Mrs. Reed.

Mrs. Alvin Immon presided over the bride's book. Mrs. Grant Westbrook, Mrs. Carroll, Mrs. Howell, Mrs. Jack Reed and Mrs. Charles Speed assisted in serving the open faced sandwiches and cookies.

Mrs. T. P. Westbrook of Navarro poured tea the first hour and Mrs. Hugh Barlow, the second.

Mrs. M. O. Cook, violinist, Mrs. A. S. Pritchard, pianist, and Miss Quava Jane Nicholson, vocalist, furnished entertainment throughout the afternoon.

Fourteen Killed In Munitions Blast Near Paris Today

PARIS, Jan. 26. (AP)—Munitions taken from the revolutionary band C. S. A. R. today sent 14 men to their deaths in terrific explosions which wrecked the isolated Municipal Pyrotechnic Laboratory in Villejuif, a Paris suburb.

The blasts came as thousands of confiscated hand grenades were being loaded into army trucks for removal to the artillery park at Versailles.

The dead included five soldiers, three civilian laborers, three chemists, two police inspectors

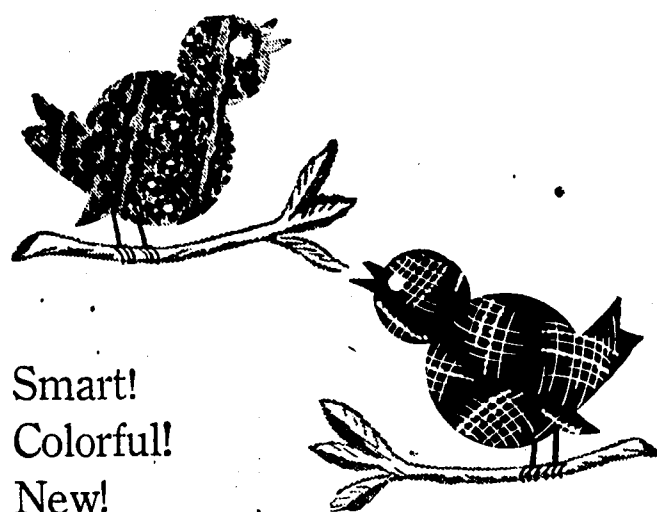

and one police chauffeur. Ten persons were injured.

Some of the victims were thrown into nearby tree tops.
